

Electronic Data Manager (EDM)

Mission

Enable the aircrew member to quickly plan missions and react to mission changes in flight.

Description and Specifications

The **Electronic Data Manager (EDM)** provides a user-friendly kneeboard computer with an internal GPS, moving map capability, sunlight readability, and the capability to use Windows-based software to replace current kneeboard. The EDM:

- Displays moving maps (aircraft position and waypoints)
- Imports mission planning data
- Provides capability for weight and balance calculations
- Provides capability for aircraft performance planning calculations
- Provides capability for electronic notes
